EAN CODE

Destacados:

- Router portátil/de viaje (MiFi) con batería interna.
- Ranura para tarjeta TF interna compatible con 1TB
- Pantalla OLED interna para la señal LTE, SSID, contraseña, duración de la batería y alertas
- Batería interna de polímero de litio de carga rápida de 7000mAh
- Sistema operativo Linux OpenWRT con los principales servicios VPN como Wireguard, OpenVPN, NordVPN y muchos otros.
- 1x puerto LAN Fast Ethernet con adaptador de acoplamiento posible (ver imágenes).

Mudi V2 es un router 4G LTE portátil diseñado para que los usuarios protejan su privacidad en Internet mientras viajan. Ofrece velocidades de Internet de 300 Mbps (2,4 GHz) y 433 Mbps (5 GHz), con un ancho de banda Wi-Fi máximo combinado de 733 Mbps. El dispositivo ejecuta el firmware propio de GL.iNet, basado en OpenWrt, y viene precargado con una amplia gama de funciones de privacidad y seguridad, como conexión a un cliente VPN, alojamiento de servidores VPN, filtrado de anuncios, DNS cifrado y mucho más.

Mudi V2 (GL-E750V2) es una versión mejorada de Mudi (GL-E750). El nuevo modelo cuenta con un potente chipset que soporta una eficiente conexión 4G LTE, así como un rendimiento Wi-Fi 5G mejorado. Además, el Mudi V2 tiene una nueva batería con un tiempo de carga más corto, que ofrece a los viajeros una experiencia de Internet mejorada.

Coffee shops

Whether you're working from a cafe or just stopping by for a coffee, use Mudi V2 to establish a private internet connection and stay away from prying eyes.

Hotel rooms

Hotel Wi-Fi is not always safe. Use Mudi V2 for a private, secure connection. Also, you can save on excessive Wi-Fi fees and avoid poor internet service.

On the road

Mudi V2 meets whatever your needs are while on the road—letting you watch your favorite content, live stream, or access a network remotely.

Improved Network Reliability with Multi-WAN

Mudi V2 offers four connection methods—cellular, tethering, Wi-Fi, and ethernet. Featuring multi-WAN, the travel router supports failover and load balancing, ensuring uninterrupted internet connectivity wherever you go.

Best Travel Router with VPN

Protect your data with integrated VPN Client

Mudi V2 offers built-in VPN functionality to help you stay private and secure at all times. With its support for OpenVPN or WireGuard, the travel router protects your online traffic anywhere you go. All you need to do is get a VPN subscription from one of the over 30 VPN service providers supported by GLNet.

Built-in with VPN server for remote access

Mudi V2 supports running as a VPN server, allowing you to securely access your home or office network from anywhere in the world. The router supports running as a VPN client and a VPN server at the same time, meeting your needs all at once.

WireGuard

OpenVPN

* Tests conducted on a local network. Real world speeds may differ depending on your network configuration.
* OpenVPN and WireGuard speeds will be slower when running the device as a server. Results above are in client mode.

Pocket Wi-Fi on the go

Mudi V2 gives you a private bubble of internet wherever you go, with the added peace of mind that comes from knowing your online traffic is always protected by the VPN. With its support for global carriers, rest assured Mudi V2 works wherever the road takes you.

Detalles técnicos:

Interfaz	1 x puerto USB 2.0 1 x ranura para tarjeta nano SIM 1 x ranura para tarjeta microSD (hasta 1TB) 1 x tecla Shift 1 x botón de encendido
CPU	QCA9531, @650MHz SoC
Memoria / Almacenamiento	DDR2 128MB / NOR Flash 16MB + NAND Flash 128MB
Módem 3G/4G	Módulo CAT4 (DL/UL 150/50Mbps) o módulo CAT6 (DL/UL 300/50Mbps)
Antena LTE	2 antenas internas de frecuencia completa (700M~2,7GHz)
Protocolo	IEEE 802.11a/b/g/n/ac
Velocidad Wi-Fi	300 Mbps (2,4 GHz), 433 Mbps (5 GHz)
Conexión Ethernet	1 puerto FE (compatible con la estación de acoplamiento)
LED	Pantalla OLED de 0,96 pulgadas
Entrada de alimentación	Tipo-C, 5V/2A
Batería	Batería recargable de 7000mAh
Temperatura de funcionamiento	0~35°C (32~95°F)
Temperatura de almacenamiento	-20~45°C (-4~113°F)
