

Makeblock Zubehör Akku für mBot-S & Arduino Nano MKR Serie / Wiederaufladbarer LiPo Akku 3,75V 1800mAh

EAN CODE

Description:

MBot lithium battery 103450 only applies to all of our product categories in the mBot series,
the use of untested in conjunction with other products.

Battery with protective plate (to prevent over charging / over discharge / short circuit / over current protection)

Features:

Battery type: polymer lithium battery / rechargeable battery

Charging method: connect mCore charging through USB

Battery capacity: 1800mAh

Nominal battery voltage: 3.75V

Charging up voltage: 4.2V

Discharge voltage: 2.75V

Maximum charge current: 1800mAh

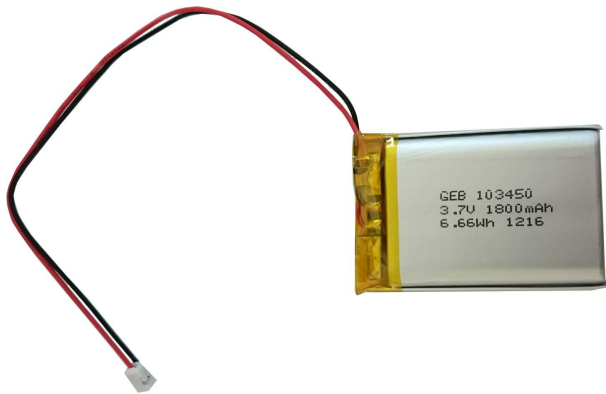

Maximum discharge current: 1800mAh

Weight: 33g

Battery size: 10*35*50mm

Battery lead outlet: left outlet, diameter 0.9mm, exposed length: 60 + 3mm
