

WiFi Smart Plug

Tuya Smart app control / Third party voice control
Power metering / Timing

Product Parameters

Model No.: SWE01

Input Voltage: 100-240V~ 50/60Hz

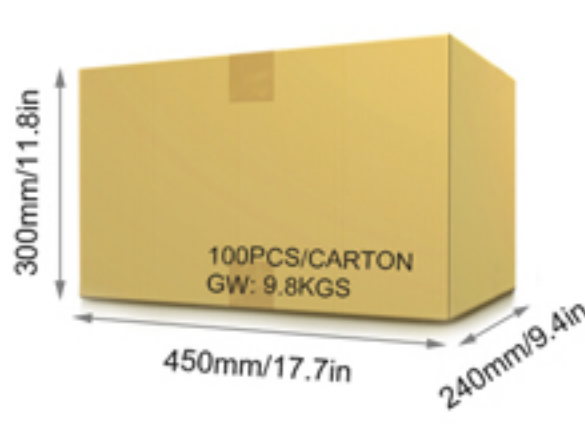

Output Voltage: 100-240V~ 50/60Hz

Output Current: Max 16A

WiFi Standard: IEEE 802.11b/g/n 2.4GHz

Working Temperature: -10~40°C

1PC/BOX
G.W.:0.083KGS

Appointment Timing Function, More Assured And More Energy-Saving

Regular life, use with various electrical appliances
turn on the appliances on time every day

Voice Control, Smart Life

Can be associated with Google Assistant, Amazon smart speakers for voice control

Statistical Power Consumption Records Daily Power Consumption

Statistical power consumption of electrical equipment,
timing switch, save electricity
