Powerful Android Multimediaplayer S905X4 Pro

Amlogic S905X4 4GB DDR4/32GB Storage, HDMI 2.1, WIFI 6 2,4/5,8GHz @80MHz Bandwidth, 4K, USB 3.0

Our new Multimediaplayer is a small but very powerful player with **Android 11**. The player can be used as a TV Box or as a Digital Signage Mediaplayer. The connection to the Google Appstore provides access to millions of apps.

The player can be operated with displays up to **4K resolution** on **HDMI 2.0** certified devices and cables. A native rotation of the display is possible, allowing the content to be played in portrait mode. With **4GB DDR4 RAM**, the player has **good performance** in video playback and the storage runs less full than with 2GB variants. The **32GB storage** offers enough space to store Digital Signage content offline. A digital SPDIF audio output provides the optimal cinema experience via a cinema sound system. The control can be done via an optional keyboard and mouse or via the remote control included in the delivery.

With WIFI 6 and WPA3 encryption, this player is up to date and equipped with sufficient speed and security.
