The new ALLNET media players are up to date with the latest chipsets and impress with their performance. This device can also be used as an Ubuntu server. The areas of application are diverse, e.g. home automation or video surveillance.

ALLNET PrimeOne Player

The ALLNET PrimeOne media player offers you an impressive multimedia experience thanks to its powerful RK3568 processor and generous 8GB RAM and 64GB storage. Choose between models with or without LTE for maximum flexibility.

Main features of the RK3568 processor:

- Quad-core ARM Cortex-A55 CPU
- Mali-G52 GPU for excellent graphics performance
- Supports 4K UHD video output
- High-performance AI acceleration
- Efficient power management
- LTE EC25 Quectel

The elegant, cool metal housing with practical VESA mount enables seamless integration into your setup. The accessories include a remote control, a USB cable for updates, an HDMI cable and a 12V power adapter - everything you need to get started right away.

Experience the highest performance and versatile connectivity with the ALLNET PrimeOne media player.
