The new ALLNET Media Players are equipped with the latest chipsets and impress with their performance. This device can also be used as an Ubuntu Server. The application areas are versatile, e.g. home automation or video surveillance.

**ALLNET PrimeOne Player**

With the ALLNET PrimeOne Media Player, you can enjoy an impressive multimedia experience thanks to its powerful RK3568 processor and generous 8GB RAM and 64GB storage. Choose between models with or without LTE for maximum flexibility.

**Main features of the RK3568 processor:**

- Quad-Core ARM Cortex-A55 CPU
- Mali-G52 GPU for excellent graphics performance
- Supports 4K UHD video output
- High-performance AI acceleration
- Efficient power management

The elegant, cooling metal housing with practical VESA mounting allows seamless integration into your setup. The accessories include a remote control, a USB cable for updates, an HDMI cable and a 12V power supply – everything you need for immediate start.

Experience highest performance and versatile connectivity with the ALLNET PrimeOne Media Player.
