- Power consumption: [xx W]
- Light output: 6.5 W
- Color temperature: 1800 K (warm white, candlelight)
- Safety class: III (low voltage)
- Power supply: integrated battery, 2100 mAh
- Charging port: USB-C
- Dimensions: 195 × 72 × 72 mm
- Weight: 410 g
- Special features: Steplessly dimmable

### 3. Installation

1. Before using the light for the first time, fully charge it using the included USB-C cable.
2. Turn on the light using the on/off switch.
3. Select the desired brightness or color using the control button or the app (if supported).

### 4. Operation

- Switch the light on and off using the main switch.
- Adjust the brightness using the touch/rotary control or the app (depending on the model).
- Adjust the light color and select lighting scenes using the Yeelight app or compatible smart home systems (if supported).

### 5. Safety instructions

- Do not use the light in rain or in damp conditions (unless the IP rating is sufficient).
- Use only the supplied charger or an equivalent one.
- Switch off and disconnect from the charger before cleaning or before storing for an extended period.
- Do not attempt to open or replace the battery yourself.
- Do not cover the light – risk of overheating.

### 6. Cleaning and maintenance

- Clean only with a dry, soft cloth.
- Do not use liquids or harsh cleaning agents.
- If the light fixture malfunctions, do not attempt to open it yourself – please contact the importer or authorized retailer.

### 7. Disposal

This product is subject to EU Directive 2012/19/EU (WEEE). Please do not dispose of it with household waste. Dispose of the lamp at a local collection point for used electrical equipment. If a battery is included, dispose of it separately according to the EU Battery Directive.
